

## Noonberg Elected Senior Class President Tom Dwyer Receives Jenkins Gold Medal

### Logue, Cooney Zamecki Are Other Debaters

#### Dr. Ayd, Mr. Lohrey, Mr. Bracken Judge

Thomas F. Dwyer, a sophomore science major, has won the Gold Medal in the annual Jenkins Prize Debate. The contest was held on Wednesday, May 7, in Cohn Hall.

E. Richard Zamecki, was Mr. Dwyer's partner while the opposition included L. Earl Logue and Nelson J. Cooney.

#### Judges

The contest was judged by Dr. Frank J. Ayd, Mr. Philip Lohrey, and Mr. Thomas Bracken.

The Jenkins Gold Medal for Debate, founded by Austin Jenkins, is awarded annually to the best debater in the Prize Debate.

#### Faculty Attends

The contest was attended by Fr. Hoggson, Mr. Christ and Mr. Voci of the faculty. The chairman was Patrick Cullen.

The topic of the debate was: Resolved: The Requirement of Membership in a Labor Organization as a Condition of Employment Should Be Illegal. The affirmative was upheld by Dwyer and Zamecki; the negative by Logue and Cooney.

#### Rights Issue

The chief point of contention throughout the debate seemed to be whether it is morally wrong to compel a man to belong to a private organization, such as a union, even if it be for his own benefit.

The common argument that Right-to-Work laws would help rid the unions of corruption was not advanced during the debate.

### Science Clubs

By Jack Conroy

The 1957-58 school year has seen unprecedented activity and accomplishments from the various science clubs.

#### Chemistry Club

For the Chemistry Club the main activity of this year consisted of a joint meeting with all the colleges of the Baltimore-Washington area.

The meeting was followed by a luncheon at which Dr. Kirner, the director of chemical research for the National Science Foundation, was the principal speaker.

#### Physics Club

The Angelo Secchi Physics Academy heard lectures by several prominent guests, including Mr. Gallagher of the Johns Hopkins Infrared Laboratory, and Mr. Coyne, S. J. The club is still planning a field trip to the Naval Ordnance Laboratory on May 15.

#### Biology Club

The Mendel Biology Club this year presented a series of lectures by members.

It also amended its constitution to admit underclassmen, who are biology majors. Previously only juniors and seniors were allowed membership in the club.

Winner of the Annual Jenkins Prize Debate: Soph Tom Dwyer of the Bellarmine Debating Society.

Election winners — Bill Noonberg, Joe O'Hara, Dick Prodey, Hugh McKenna, and John Synodinos.

### J. Synodinos Uncontested

#### Jun., Soph. Elect O'Hara & Prodey

By Bob Bongart

Spurred on by the junior year over 47% of the student body voted for Student Council representatives and class officers in Xavier Lounge on May 7th.

Results are now on record for Evergreen's 1958 elections after a spirited two weeks of campaign posters and election reminders.

#### S.C. President Uncontested

Though many positions were highly competitive, some remained uncontested.

John Synodinos, a Junior history major, is the uncontested President of the Student Body for next year.

#### McKenna Gets A.A.

Afer a spirited campaign with much publication on both sides, Hugh McKenna outdrew Bob Chester, 209 to 139 votes for President of the Athletic Association.

#### Class Presidents

Elections for Presidents of Senior, Junior and Sophomore classes were very decisive.

Bill Noonberg garnered 68 votes to 29 for Joe Touhey for Senior President while Joe O'Hara, over Gordon Hasnei 97 to 17, is president of his class for the second straight year. Dick Prodey outdrew Jerome Balda, 55 to 7, in elections for President of the Sophomore class.

Each of the runners-up in the President elections will serve as Vice-President for his year.

#### Other Class Officers

Winners for Secretary of the Class from Seniors to Sophomores are Tony Serio, Warner Johnson, and John Dodson respectively.

Treasurer for the senior class next year will be Bill Byrnes while Junior and Sophomore Treasurers will be Richard Keene and Tim Gray.

#### Senior Representatives

Student Council representatives for next year's senior class will be Joe Vinci representing the social sciences and Pete Santoni the Business representative.

## A.S.O., Honor Report Get Nod Council Rejects Marian League

Even though the year is practically over and the new council president has been inaugurated, there are still some finished (and unfinished) matters to report from the outgoing council.

In windup sessions the council passed on four major proposals; one was approved and three were disapproved.

#### ASO

First, the council approved, on a permanent basis, the Academy of Student Orientation (ASO). This organization was conceived last year to assist in the orientation of incoming freshmen, and was approved by the council for one year only.

Now that the organization has been given the green light, Bob Chester, the new president, is already planning next year's program.

#### Marian League

The council, however, voted down the Marian League which

was to be established on campus. The council, in defeating the proposal, expressed its opinion that there are already enough religious organizations on campus, and that the establishment of such a league would be needless duplication.

The Marian League was to have been an active religious organization for those who were willing to work, but could not fulfill the requirements of Sodality membership.

#### Honor System

A report was read by George Nellies, the chairman of the committee which investigated the possibility of an honor system for Loyola.

The report contained a tabulation of the response, received to a questionnaire sent to various colleges, asking whether those colleges had an honor system, and if it worked.

Most of the colleges replied that they did not have an honor sys-

tem; some were interested in starting one, and one Jesuit college reported that it did not feel the need for one.

After considering the evidence, the council decided that such a system would not work at Loyola, and the proposal was defeated.

#### Unlimited Cuts

A proposal to send to the Dean of Studies a request for an unlimited cut system was presented by Jerome Langan.

The discussion that followed was mostly on the technicality of terminology. After some consideration it was discovered that "cuts is a misnomer; that the correct term is "Absenteeisms."

Mr. Nicholas Varga, the faculty observer at all student council meetings, then suggested that it might be best to table the matter until the next council should ake office.

#### Request Tabled

The reason for this delay was given as follows: there is already one proposal before the Dean, and it would be unwise to overwork a privilege. The request was tabled by the council, as suggested.

The proposal already before the Dean is a petition for a holiday on the Thursday before examinations.

## Three Loyola Graduates Promoted To Monsignori

By Elmer J. Linthicum

Three Loyola College Alumni were numbered among the ten Archdiocesan priests elevated recently to Domestic Prelate by His Holiness Pope Pius XII.

Fathers William F. Sauer, William J. Sweeney and Charles H. Yingling, who may now be addressed by the title of Right Reverend Monsignor, will take part in investiture ceremonies to be held in the Cathedral on June 8, according to Archbishop Francis P. Keough.

The honored priests, pastors of St. Michael Church, Overlea, St. Ursula Church, Parkville, and St. Matthew Church, respectively, attained distinction while at Loyola in activities as well as scholastically.

Father Sauer, class of 1915, was the founder and first President of the Loyola College Chess Club. He was also Art Editor of the EVERGREEN annual.

Graduating in 1922, Father

Sweeney had been Prefect of the Sodality and President of the Dramatic Society and the Athletic Association in addition to being Secretary of the Debating Society.

A General Excellence Medal for academic achievement and a Chemistry Medal are the honors attained by Father Yingling of the Class of 1921.

#### Graduate Ordained

Mr. Thomas Baumgartner, a graduate of the class of 1952, will be ordained at the Cathedral of the Assumption of the Blessed Virgin, Baltimore, on May 24, Saturday.

Fr. Baumgartner will celebrate his first Mass on the Sunday following his ordination, May 25. This High Mass will be celebrated at All Saint's Church, here in Baltimore.

During his four years at Loyola College, before entering the seminary, Mr. Baumgartner was a business major.

## LIT Receives Schap

By Jerry Daly

Mike Schap, of the graduating class of 1959, was received into the Rho chapter of Lambda Iota Tau, better known on campus as L.I.T., the literary honor society at Evergreen. Mike is the fifteenth person to be admitted into our chapter of Lambda Iota Tau since its founding on campus.

Mike was admitted into the society after delivering a talk on a literary work of J.D. Sallinger, "Catcher in the Rye."

#### English Major

Mike is an English major and in addition to his regular curriculum, he is a cadet lieutenant in the advanced course, R.O.T.C. He is also augmenting his regular course of study by attempting to acquire a knowledge of the Russian language.

Mike Schap

## Editorials

### Put It In Writing

According to the masthead this paper is a publication by and for the students. It is *de natura* a means of communication. Communication is a primary end of education, but to be most effective it must be reciprocal.

It is slap-on-the-back time of year again so we would like to thank those who have read this paper and have made themselves heard. We tell you in the paper what we know is going on and what we think of it and we like to hear what you know is going on and what you think about it. We tell the news as we see it. If you have objections tell us in a way that we can use them, in writing.

We would also like to say something in favor of that most maligned institution on campus known as the cafe. For all the inconveniences of crowding so many students in so small a space it is still indispensable. Here is the student's forum and informal study hall. Here opinion is made and lessons learned.

Communication is so essential for that is how minds grow. This newspaper can not say everything it should, merely be a stimulus and source for your own thoughts on this college, studies, the world and finally life itself.

Here it is the end of the year and some reflection should be made on what we have accomplished in the past months. What have we learned and even more important what have we thought?

To quote one of the philosophers "I think, therefore I am." With this as a criterion how many of the Loyola students could prove their existence? Telepathy is not yet perfected and so people must either talk or write.

Will your ideas stand the light of day? Are they worth displaying at all? You will never know until you express them.

## the Watchdog

BY JERRY DYER

Being the end of the school year, and all that jazz, it is time to air the annual report from "The Office."

(1)-The total of chewing gum collected from the bottoms of chairs in Cohn Hall alone came to a staggering four pounds, three ozs., it is being donated to a worthy charity."

(2)-The amount of missing fissionable matter pilfered from the labs is quite disturbing, will parties having any information as to the whereabouts of this material please report to the authorities immediately. Please, there is no cause for alarm, and routes 301, 40 and 2 are the quickest ways out of the city."

(3)-"Will whoever left a pair of size 34 sneakers in the G claim them."

The Muses are Heard — Mr. Cooney advised one of his classes to go see "Cocktail Party, because, "it's talked about in all the best places.

We would say something about the Junior Prom, but we were not in attendance, and no one who was seems to be able to remember much of the evening at all. We didn't see anybody in a Tux Monday morning, pajamas, yes, but no tuxes.

Boy, will it be quiet around here next year with our graduates graduated. At least the Student Council meetings will be more restrained, but we wouldn't bet on it.

All seriousness aside, your ol' Watchdog, at least, has profited immensely by association with them." We would like to thank each of the Seniors for their contribution to Loyola.

A problem, in the same vein, who is capable of handling, caring for, and pumping the "Sceptic Tank" as did its previous owner and operator? We think or something.

We hope Y'all have a "Long, Hot Summer."

## The Greyhound

Vol. XXXI, No. 14 May 19, 1958

Student publication of Loyola College, Evergreen, Cold Spring Lane and Charles St., Baltimore 10, Md. Published bi-weekly except during holidays and periods of examination. Phone ID-5-2500.

This publication is entered as second-class matter at the post office in Baltimore, Md.

Subscriptions \$1.50 per year

The Greyhound is a publication by and for students, and the opinions expressed therein are not necessarily the views of the Administration. Official pronouncement by the Administration will be so designated.

## ROTC

BY DICK PRODEY

On Wednesday, April 30th, Bill Offutt was elected Company Commander of the P.R., Loyola College unit, and stepped into the shoes (spit shined we hope) of George Skirka. Bill's assistants for next year will be Elmer Linthicum, Exec. Officer, Robert Reilly, Fred Wenzl, Dennis O'Malley, Pat Brookhart, Ed Zepp, Paul Dill and Fred Benson. Mike Spigelmire will again fill the post of Drill Instructor for the new pledges.

Election time finds the Association of the U.S. Army with a new set of officers. Roy Gegner is top man in the organization, with Hugh McKenna and Pete Santoni as his assistants. This society has already started its activity by obtaining new yellow, black, and white (WOW) fourageres for its members. This presents quite a problem for those who already have two fourageres, but Sgt. Lachenman will come up with something . . . (three shoulder

coats have already been suggested).

Colonel William J. Himes, PMS&T from the University of Pittsburgh, Major Clarence R. Westfall, asst PMS&T Lehigh University, and Captain Thomas R. Lind, asst. PMS&T of Lafayette College were the officers who gave the Federal Inspection on the 7th of May.

Drill competition winners: Dick Prodey (left), Fred Wenzl (right).

DURING THE PRESIDENT'S REVIEW\* Fr. Beatty awards medals to Ed Batda (senior), Bill Offut (junior), and Mike Spigelmire (sophomore) — right to left.

## Two Ph.D.'s, Kokes and Macksey, To Leave Faculty For Hopkins

After three years here at Loyola Dr. Richard Kokes is leaving the faculty to teach at Johns Hopkins University.

Dr. Kokes summed up his feelings with this statement: "I have enjoyed it very much here, and I have many regrets about leaving."

Dr. Kokes is a man truly devoted to science. After receiving degrees in physical chemistry from Villanova and Cornell, he spent some time at the Milan Institute before coming here.

During his teaching career he has received offers from industrial concerns, offers which he has refused in order to continue his dual career in teaching and basic research.

While teaching freshman chemistry at Hopkins, next year, Dr. Kokes will continue to explore the boundaries of scientific knowledge, which is his foremost interest.

He has been and will continue to be active in the field of catalytic research.

Just as he regrets leaving Loyola after three rewarding years,

### Strauch, Zaczek, Horak, Nehmsman, Are Given Grants

This year Loyola is sending two of its top Math students to Notre Dame, Robert Strauch and Martin Horak. Both will be working for their Ph.D. in Math and will be on teaching fellowships.

Bob Strauch with a Q.P.A. of 3.5, is very active in Sodality and last year was prefect. He also is a member of the Glee Club and Math Club.

Marty Horak was Math Club president last year and vice-president this year. He also participated in the Glee Club, Physics Club, and made "Who's Who" this year. With all this he has maintained a Q.P.A. of 3.7.

#### Chemistry Majors

Also Norbert Zaczek will be going to Carnegie Institute of Technology, and Louis Nehmsman to Rutgers. Norb and Lou will both be on teaching assistantships, in chemistry.

Norb was a member of the Chemistry Club and was on the business staff of the Greyhound. He has a Q.P.A. of 3.4.

Lou also was an active member of the Chemistry Club and was with the Greyhound. His Q.P.A. will be about 3.1.

the faculty and student body of Loyola regret his leaving.

#### Dr. Macksey Leaves

Dr. Richard A. Macksey is another member of the faculty who will not return next year. Dr. Macksey will join the faculty of Johns Hopkins, after two years at Loyola College.

His present position with the English Department was the first full-time teaching position for Dr. Macksey, who will be teaching in the Hopkins Graduate school this fall.

"I leave Loyola with regrets, yet I will still feel close to the members of the faculty and the student body," was how he expressed his sentiments on leaving.

Dr. Macksey's interest centers in the field of comparative literature. He graduated from Princeton University and pursued graduate studies at Hopkins, where he will continue his studies, along with his teaching position.

Dr. Macksey, who speaks with the authority of a primary reference work on literature, will be hard to replace.

Dr. Kokes

Dr. Macksey

## Music

### Stereo

By Ron Sacker

Over the past couple years more and more people have been fascinated over high fidelity systems. Now the new stereo-type method of sound reproduction is catching the interest of hi-fi enthusiasts.

The difference between the two systems is alarming when they are compared. Stereophonic sound literally places the listener in the orchestra pit; for it envelopes him with a surrounding coherence of sound.

#### Difference in Parts

Ordinary high fidelity systems are made up of three major parts: the audio source, the amplifier, and the speaker enclosure. When it is energized sound emanates from the speaker with a directive component. In stereophonic sound two amplifiers and two speaker systems are used in conjunction with special made records or tapes and pickups. This type of presentation does away with sound directivity and gives an impression of realistic concert quality.

The disadvantage of this display of "three dimensional" audio lies in the cost of instrumentation. Since two channels are used along with special records and a cartridge, the actual cost is from two to three times as much as the regular hi-fi system.

#### Mass Production Begins

Experimental types have been available and recent developments have made possible the mass production of stereo records.

The Radio Club of Loyola College may attempt to give the student body an exhibition in stereophonic sound some time in the next school year. Plans for this venture have not been completed as yet. However, work on the project will extend into the summer.

### Discussions

By John C. Byrnes

Johnny Mathis' faultlessly arranged and beautifully produced LP "Goodnight Dear Lord" is enough to make Nakita K. himself experience a religious renovation.

Other albums worthy of note are: "Muted Jazz" as interpreted by the popular Jonah Jones on Capitol; Lerner & Loew's (My Fair Lady) filmed musical extravaganza, "Gigi"; the Hi-Fidelity recording of "Taboo", which was projected into the local spotlight by the recent Balto.-Wash. Hi-Fi show; and last but certainly not least, in fact its the "most", is Louis Prima's latest cutting, appropriately entitled, "The Wildest."

#### Pelvis Still Lingers

A few salient singles are: Chuck Berry's latest effort, "Johnny B. Goode"; Fats Domino's "Sick & Tired" and "Hang Up My Rock N' Roll Shoes" as sung by the late Chuck Willis. Despite the fact that the "Pelvis" has packed his guitar into an army duffel bag, his music lingers on in the form of "Wear My Ring Around Your Neck."

It is somewhat interesting to note that the actual production cost of the 45RPM is 8c and that of the 33LP, 75c.

#### Local and National

Just as "R & R" with its accentuated beat and tri-note scope has given to youthful show business aspirants opportunities unequaled in the past for becoming nationally (Ricky Nelson) and even internationally (Frankie Lynn) famous, so also has it afforded similar opportunities for exploitation on a local level. The latter is exemplified by such local stalwarts as the "Crystals" and the "Omegas."

## Senior Engineering Majors Undertake Various Fundamental Research Projects

Half the students that pass the little garage next to the tennis courts always seem to have the strong urge to look inside to see what's going on in there, but their curiosity is quickly overcome and they keep walking past. To satisfy this curiosity, the garage is Mr. Elmo Di Biagio's engineering lab

for the seniors. Two hours a week, twelve seniors work on the six projects that they started at the beginning of the second semester.

Joe Finnerty and Jim Wetzel are working on a 3½ ft. high pulse jet which has the same principle as the well known V-2 rocket. Finnerty and Wetzel have said

that when the model is started, its noise will be audible to all parts of the campus.

A lab check which relates the theory of stresses and strains to internal pressure in a thin wall tank is being conducted by Al Simon and Jim Duffy.

One of the pet projects of Mr. Di Biagio is the vibrating wire strain gauge which he himself worked on in Norway, and brought to this country. Jerry Burch and George Seidel have the honor of experimenting with the gauge which is the only one of its kind being used in the U.S.

Steve Crosby and Carl Amrein have a pipe friction experiment, and Ed Aimes and Ed Balda are making use of polaroid light in studying stress distribution.

SCENE IN THE ENGINEERING LABORATORY — Jet engine experiment is in the foreground. In the back the oscilloscope for the tension experiment is visible. Jet controls include air speed indicator and current meter.

# Final Play Production Best Received Of Year

The Cocktail Party, a mystic comedy by T.S. Eliot, was presented by the Dramatic Society as their last effort of the current school year. Anyone who saw this play came away feeling better for the adventure, for it was an adventure.

We viewed Edward (Ed Reese) and Lavinia (Marge Kuhn) Chamberlayne, a smug, middle-aged couple, who couldn't bear each other almost as much as they couldn't bear to be separated, Celia Coplestone, a young neurotic, destined for martyrdom, who has functioned for some time as Edward's home-away-from-home, and Peter Quilpe, a youthful Anglo-American gigolo, of sorts, played by Dennis Smyth.

This was the scene as the Dramatics Society presented "Cocktail Party"

The Guardians, the over-earthly beings who nimbly manipulated the lives of the four mixed-up characters mentioned above, were Sir Henry Harcourt-Reilly, psychologist, and Alexander MacColgie-Gibbs, world traveler, whose parts were taken by John Synodinos, and Jim Molloy.

Briefly, the plot concerns a stuffy English barrister and his wife, who are brought to a better understanding of each other by a strange psychologist. The other characters duck in and out, leaving an impression, then vanishing into their own separate niches.

It is difficult to designate the one actor who sprinkled the comedy with the most cologne, but Jim Molloy seemed to exude the most mellifluous fragrance as an inadvertant preternatural poisoner who knew all-the best recipes for saffron monkey rarebit. Dennis Smyth's own personality showed through his characterization, but not to the play's detriment. Sir Henry Harcourt-Reilly was played with John Synodinos' typical good-natured bombast, and dominated the production as the psychologist who sees all, knows all, and takes his gin with a drop of water.

I have saved Ed Reese's name until last, since he has a record of splendid performances, and it is no news that he gave another superb one in *The Cocktail Party*.

Col. Minot

## Vince Cicina Wins Salute

A twenty-two year old accounting major, Vince Cucina was elected as the business representative of his section to the Student Council last year. He serves as the chairman of the Council's Traffic Committee.

A cadet major in the R.O.T.C., Vince will be commissioned in the Adjutant General Corps in June. A D.M.S., and member of the Scabbard and Blade and the Association of the United States Army, he was appointed public information officer for the cadet regiment. In 1957, he was awarded a gold medal for the highest average in R.O.T.C.

Selected for "Who's Who in American Colleges & Universities," Vince is very active in extra-curricular activities. Co-Business Manager of the yearbook, Vice-President of the Dramatic Society, and Treasurer of Alpha Sigma, Nu, the national Jesuit honor society, are a few of his achievements.

**Various Hobbies**

This Poly grad's wide interests reflect in his hobbies. His avocation is that of an archeologist as well as that of a historian and philosopher. He can often be found in Anderson's discussing some newly-discovered traces of a town 5000 years old, or comparing the Christian and Hindu philosophies.

Benny Goodman is his particular favorite in the field of jazz. He enjoys jazz but doesn't mind classical music.

**High Scholastic Rating**

Vince is also outstanding in the classroom. He won the Ryan Gold Medal for the highest average in his freshman year, and the Murphy Gold Medal for theology in his junior year.

Well liked throughout the school (and at neighboring schools, incidentally), Vincent Robert Cucina, "everybody's buddy," receives the GREYHOUND SALUTE OF THE MONTH.

## Colonel Minot Leaves Loyola

Colonel Charles A. Minot, Professor of Military Science and Tactics here for the past four years, will leave after this year to embark on a three-year tour of duty elsewhere.

Colonel Minot, himself a product of ROTC at the University of Illinois, has done much for the status of ROTC here at Loyola in his four years.

When the Colonel took over the command of our ROTC, there was only 1 battalion, and little respect for the department.

### Current Status

As of today, there are two full battalions — and what is more, a healthy respect for the appreciation of the ROTC detachment. Even the WATCHDOG, which is a perennial antagonist of the military, has recently praised the ROTC.

After graduating from the University of Illinois in 1932, Colonel Minot served in the reserves. In 1940, he was called into active service for the Second World War.

### War Service

He served in Central Europe as commander of a separate Medium Artillery Battalion. During the war he was promoted to Lt. Colonel, and in 1948 to full Colonel.

During the Korean conflict, the Colonel served in a light battalion of field artillery in the 40th Infantry Division. He was division artillery S3, and also Executive Officer. Later he was transferred to the 25th Infantry Division.

### War Hero

A brave and distinguished soldier, Colonel Minot has received the following awards during his years of army life: the Legion of Merit, the Bronze Star, The Korean Ulchi Medal, the Korean Presidential Unit Citation.

## Lt. Smallwood Leaves L. C.

By Fred Wenzl

This June not only marks the end of the 1958 school year, but also the end of Lieutenant Smallwood's tour of duty as an instructor of Military Science here at Loyola.

Lieutenant Smallwood had just completed 17 months on active duty with the 7th Infantry Division in Korea when he arrived here at Loyola during the summer of 1955. During his three year assignment as instructor of the Sophomore class, he became the moderator of the Pershing Rifles. Under Lt. Smallwood's supervision and leadership, this organization won first place at the Drill Competition at Parkville and placed high among the best companies at the Regimental Drill Competition held at Harrisburg, Pa., this year.

Lt. Smallwood's next tour of duty will be at Fort Benning, Georgia. It is certain that he will be as well liked and admired by the men stationed there as he is by the men of Loyola.

Lt. Smallwood

FALL SPORTS

CROSSCOUNTRY

This year's Greyhound cross-country team turned in an impressive dual-meet record, including a win over Catholic University, breaking the Cardinals' long win streak, stretching over two years. The harriers were 4-1 in dual meets, and finished in the Mason-Dixon Conference championships.

Ken Billeb, Paul Sherman, and Stack Burton were the mainstays of this year's squad, each taking turns breaking the Evergreen course record. Billeb broke it twice.

Jerry Frese, Ken Donohue, Tony Hughes, and Tony Sacco also contributed greatly to the team's success. Coach Bill McElroy emphasized that cross-country is a team sport where every man counts, and all are important to the squad.

Mac stated that the outlook for next year's cross-country team is bright, with only Frese leaving. Billeb, Sherman, and Burton all have the necessary experience needed to win consistently.

If Hughes, Donohue, and Sacco can improve their form, Loyola could very possibly have a championship team in this grueling sport.

SOCCER

The 1957 edition of the Greyhound soccer team ran into tough luck in compiling a 2-6 won-lost record. Never quite reaching the potential Coach Tommy Lind set for them, the team lost stars Jack Beatty, Bill Hooper and Lou Hofferbert through injuries at times when their presence in the lineup might have made the difference. Even the weather hurt the team, forcing the cancellation of the Mt. St. Mary's game.

Scoring potential in wins over Western Maryland and Randolph-Macon was supplied mainly by Jerry Beck who was later elected to the All-Mason-Dixon 2nd team.

In the goal, Paul DiPino performed brilliantly until his leg was injured. Stepping into his spot was all-around athlete Bucky Foote who, taking up soccer for the first time, played well during the closing games of the year.

Team co-captains were Hooper and Hofferbert. Other standouts were halfbacks Dick Hall and Junior Bill Hartman, and linemen Tom Keys and Charles DiPino.

Though the booters lost four seniors, the team has gained experience and balance, and should improve next season.

SPRING SPORTS

TRACK

Coach Bill McElroy's charges won their first dual meet in two years to highlight this spring's track season. Besides beating Washington College, the Hounds lost heartbreakers to Galhudet, Catholic U., and Western Maryland. Dual meets with Mt. St. Mary's and Hopkins rounded out the schedule.

In the Mason-Dixon championships to be held this year at American U., Hugh McKenna in the sprints, Ken Billeb in the 2-mile run and Paul Sherman in the 880, could come out with first place medals.

The team's showing this year was admirable and with the bulk of the team being freshmen and sophomores, "Mac" is looking forward to an even better season next year.

GOLF

Loyola's golf team took a record of 2 wins and 3 losses into the M-D tournament.

The linksmen were led this year by seniors Paul Kohlhepp, Bob Sheehan, and Jim Wetzel, with freshman Chuck Pessagno also contributing greatly to the team's success.

Andy Michels, a junior, has been named the new captain of the team, and he, along with Pessagno, Fred Preis, and Jim Bongardt, will return next season.

Lacrosse

The 1958 Loyola College lacrosse had quite a disappointing season. Their record of one win, eight losses, and one tie was below the standard Coach Charlie Wenzel had predicted.

But injuries plagued this year's team most of the season. The most crippling injury was that suffered by All-American candidate Mickey McFadden. His loss greatly cut down the Loyola offense. Joe O'Hara was also sidelined for several games with an eye injury.

The Greyhounds opened their season on March 31 rallying late in the game to tie Cornell, 12-12 in overtime. On April 11 Penn State came from behind to defeat Loyola, 9-6.

Other losses were to B.U., Dickinson, Hopkins, W. & L., Washington, Hofstra and Maryland, while their lone win was against Swarthmore, 9-5.

Tennis

Loyola's tennis team's record of 2 wins and 8 losses was brightened by senior Jack Cummings excellent play.

Cummings teamed with Don Torres and Mitch Twardowicz to provide a winning doubles combo. Tom Clifton, Sam Donchue, and Frank Wiczneski backed up this trio.

"Bob O'Connor will be eligible next year, I hope," said Coach Vince Colimore and "we hope to return Loyola to the position of title contenders."

Whether or not Loyola wins the Northern Division Championship, everyone must agree that the 1958 season has been an interesting and exciting one. A win over Towson in the final game would give the team a respectable 10-4 league record.

In the pitching department Dave Ebersole, who has a ten inning no hitter against Catholic U., and Sophomore Ray Short have done exceptionally well.

Don Deinlein, Dave Marshall, Jack Beatty, Bucky Foote, have lead the team in hitting, while Foote and Phil Sybert have looked good defensively.

With a lot of experienced players returning, everyone is looking forward to another successful season next year.

## Running With The Hounds

—BY BOB FLEISHMAN—

The 1957-58 athletic season here at Evergreen is rapidly coming to a close, with most of the spring teams having completed their season. Only the M-D playoffs remain.

Although this year may not have been as fruitful as some in other seasons, it has been, in many ways, interesting, to say the least. The Greyhound teams have had their ups and downs, mostly the former, fortunately. Surprises and disappointments, both bound to happen during a season, turned up in just about every sport this past year.

On the bright side, the showings of the crosscountry, basketball, track, swimming, and baseball teams proved that overall, Loyola College is among the class of the Mason-Dixon Conference.

A look at some statistics at this point might prove to reveal some interesting facts. Overall, Greyhound teams compiled a won-lost percentage of roughly .490 (I say roughly, because several late season games hadn't been played at the time this was written). In M-D Conference play, however, Loyola racked up a .600 percentage, including a sparkling 13-3 mark by the basketball and swimming teams.

As I look back upon the preceding year I can't help remembering Paul Dipino knocking down enemy soccer shots with wild abandon; or Ken Billeb crossing the finish line to lead the crosscountry team to a win over C.U., breaking the Cardinals' long win streak; or Denny McGuire hauling down eight straight rebounds against American U.; or Tony Dorn's grace off the diving board.

Who will forget Dave Ebersole's brilliant no-hitter; or Mickey McFadden's deadly lacrosse shots; or Paul Sherman's great finishing kick or Jack Cumming's whip-like serves?

Loyola College's 1958 Gentlemen of Sport. Thank you for a wonderful year.

Experience, in the form of captain Denny McGuire, and youth, as typified by freshman Ed Murn, were the keystones of the 57-58 basketball squad.

## Winter Sports Basketball

With only three lettermen returning, the squad was green and the outlook was gray as the 1957-58 version of the Loyola College basketball team took to the hardwood. Pessimism ran high and only a mediocre season was hoped for. But the Hound quint quickly dispelled any thoughts of mediocrity with an opening game trouncing of Catholic University.

Following this opening victory, the hoopsters were up and down for several games, until, finally in a late surge they were able to qualify for the Mason-Dixon tournament. The squad played excellent ball in the tourney, and were just nosed out by American U. in the semi-finals.

Denny McGuire and Jack Cummings carried the bulk of the attack during season play, while Joe (Henny) O'Hara supplied added punch with his consistent scoring and rebounding in the tournament. Much credit should also be given to Gene Nieberlein, Bucky Foote and John Heagney for their outstanding efforts during the year. Tom Keys, Paul Corbett, Ferd Ruppel, Mike Sneeringer, Pete Twardowicz, Joe Watkins, and Ed Murn also contributed to the success of the team.

Prospects for next year include Tom Gray, Pat Cullen, Phil Sybert, Dave Carney, Wade Bowman, Talbot Young, Dave Marshall, John Howe, Bill Baird, Bucky Effinger, Dave Gardner, and Mike Reese.

## Swimming

One of the brightest spots in the winter sports parade, was the ability of the Loyola tank squad to nab its first, Mason-Dixon Conference swimming title in four years. Balance was the deciding factor of the tourney as the Hound natators placed eleven men in the finals.

George Krapp and Tony Dorn, leading natator scorers, will both be among the returning lettermen to the tank sport next year.

Tony Dorn and George Krapp, two swimmers who will be back next season, were the leading scorers on the splash squad. Although they differ in their specialties — Dorn is a diver and Krapp, a freestyle sprinter, this duo coupled to help coach Bill Klarner's squad maintain a 6-2 record.

John Allen, Joe Harrington Henry Zerhusen, and the freshman Powley brothers were also consistent point-getters for the Hounds. Harrington and Zerhusen were distance men, while Allen and the Powleys were sprinters.

Butterflyer Bernie, backstroker Mike, and breaststroker Paul, Kaipers were also top notch performers in their respective events. Jerry Klebe, Dan Heisey, Rich Hauer, Joe Curran, and Bill Lohnes also scored for the squad.

With the loss of only four men through graduation, expectations of next season are even brighter than this year.

## Intramurals

"The intramurals were a big success this year," Nappy Doherty, the intramural director said. This was due to the close competition in each sport. The Ramblers edged the Hound Dogs in football. The Hotshots dunked the Rhodenhafes in basketball. Sam Donohue beat Jim Bongardt to win the tennis intramurals, while at the same time Leo Remco nosed-out Kenny Lee for the ping pong championship. Swimming, a new sport in intramurals, was won by the Juniors who eked out the sophs for the title. Bowling, a flop this year because of schedule difficulties, will be held next year during the winter when drill is out. The Dodos and the Highballs were the two top teams in the softball circuit.

**There's an important future ahead for the men who wear these wings**

**GRADUATE  
THEN FLY**

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the air—and no finer exists. In addition, he has a firm background in engineering, electronics, astro-navigation and allied fields. Then, too, he must show outstanding qualities of initiative, leadership and self-reliance. He is, in short, a man eminently prepared for

an important career in the new Age of Space.

As a college graduate, you will be given priority consideration for the Air Force Aviation Cadet Program. While openings are limited, you will be tested and advised *immediately* of qualification status. Find out if you measure up. Paste the attached coupon on a post card and mail it now.

**MAIL THIS COUPON TODAY**  
Aviation Cadet Information, Dept. C-2  
Box 7608, Washington 4, D. C.

Please send me details on my opportunities as an Aviation Cadet in the U. S. Air Force. I am a U. S. citizen, between the ages of 19 and 26½, and a resident of the U. S. or possessions. I am interested in ☐ Pilot ☐ Navigator training.
